Romantic lightning by the pool

Discover magical Istria and its breathtaking countryside with vineyards and olive groves.

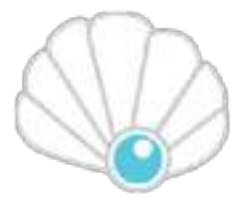

The Brijuni Island group is situated on the southwest coast of Istria and is the only national park of the peninsula.

Park Gornji Kamenjak is a place of exceptional landscape values and various habitats.

Istria also invites you to discover the enchantments of flavour. The local cuisine is known for excellent prosciutto, cattle meat and above all his majesty the truffle.

Cape Kamenjak is a protected landscape 9,5 km long and 1,5 km wide, with 30 km of coastline.

It is situated on the southernmost tip of Istria and known after his perfectly clean, blue-green waters.

Each year at the end of October an attractive meeting of windsurfers called Halloween takes place.

Veliki Portic beach lies in the same named cove and provides safe anchoring, especially from strong southern winds.

The beach is rock, flat and provides a soft entrance.

Around the beach lies a forest of autochthonous holm oaks and pine trees, so you can enjoy a natural shade in hot summer days.

As an essential part of Veliki Portic beach is also Mali Portic – a beautiful small sandy with a beach bar on it.
